

Accessories

| Part description | Order number |
|--|--------------|
| Column, Heights 330 mm | 72 198 699 |
| Wind Shield (only for XS bases) | 72 262 929 |
| Cable Extension SICSPRO, 3 m (M12 to M12) | 22 023 696 |
| Cable Extension SICSPRO, 10 m (M12 to M12) | 30 024 759 |

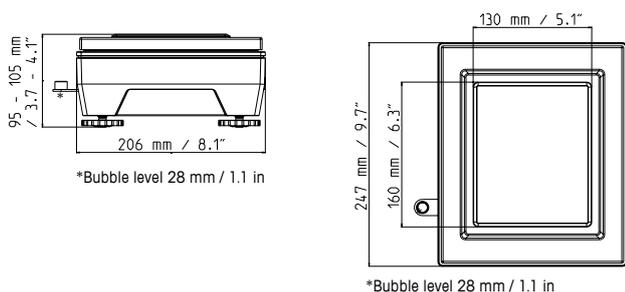

Dimensions

PBK785 and PBD555 with large (LA) platform

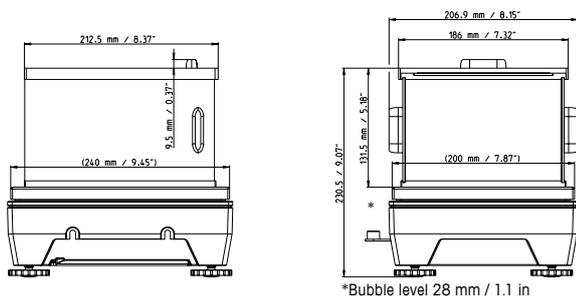

Dimensions

PBK785 and PBD555 with small (SM) and extra small (XS) platform

Dimensions

PBK785 XS (extra small) with windshield.

METTLER TOLEDO Service

Digital Weighing Platform

PBK785 and PBD555 Digital Weighing Platform

Capacities from 610 g to 35.1 kg

Fully Digital for Highest Accuracy

Pre-Calibrated - Ready to Operate

OIML up to 61'000e Approved

Robust and Reliable

Uncompromised Reliability When Accuracy Counts

METTLER TOLEDO

The Plug and Weigh Design for Accurate Weighing Results

The robust PBK785 and PBD555 platforms, made of aluminum die cast, work with digital scale interface SICSpro. These platforms already known as part of the ICS4_5 and ICS685 compact scales match perfectly to extend existing systems to a multi-platform weighing system. The PBK785 is a high precision base with MonoBloc® technology, based on force compensation. It offers an approved resolution of up to 61'000e (OIML). The PBD555 with strain gauge METTLER TOLEDO loadcell is our unmatched standard with an approved resolution up to 7'500e.

For optimum convenience, these platforms are shipped pre-calibrated from the factory. Simply unpack, plug in and start weighing.

All platforms are IP54 proof by standard. Optional IP65 is available for all platforms except the 0.6XS model. They are the perfect choice for harsh, dry and dust-contaminated environments, such as in receiving, inspection, manufacturing, warehousing, packaging and shipping.

Compact platform for highest precision: MonoBloc® technology

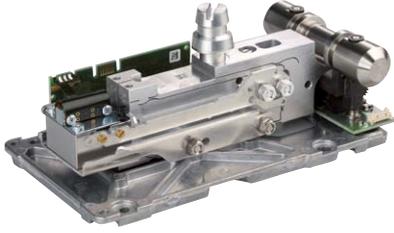

| PBK785- | | | | | | |
|---------------------------------------|----------|-------------|-------------|-------------|-------------|-------------|
| Model (Single Range) | 0.6XS | 3XS | 6XS | 6SM | 15LA | 35LA |

For Highest Precision - PBK785

Highest precision with MonoBloc® load cells based on force compensation up to 61'000e (OIML).

For Best Performance - PBD555

Our METTLER TOLEDO digital strain gauge load cell with up to 7'500e (OIML).

Accurate and Robust

- wind stable design
- Positioning to walls without contact to load plate
- over load protection for load bigger than capacity
- over load protection against sideways impacts

Fast and Ergonomic Leveling

Easy adjustable feet (no tools needed). Ergonomic leveling (level bubble can be mounted on long or short platform side).

SICSpro Scale Interface

Digital scale Interface with highest reliability Plug and weigh.
